

SATELLITE CONNECTIVITY WORKSHOP 2017

New Developments in Satellite Technologies and Services for the Pacific

Date: 24 April 2017

Venue: Nadi, Fiji

TIME	PROGRAMME
08:00 - 09:00	Registration and Morning Coffee
09:00 - 09:30	<ul style="list-style-type: none"> • Welcome Address • Opening Remarks and Objectives of the Satellite Workshop
09:30 - 10:00	Coffee Break
10:00 - 11:30	Satellites – Providing Essential Connectivity in the Pacific <ul style="list-style-type: none"> • Connectivity needs of the Pacific Islands • Satellites for backhaul and universal access • Satellites for public safety/disaster recovery • Satellites for e-Inclusion, including health, education, government, agriculture and finance
11:30 - 13:00	Lunch
13:00 - 14:30	Innovation – New Satellite Technologies and Services in the Pacific Innovations in satellite technology – more cost-effective, better quality and better performance <ul style="list-style-type: none"> • More efficient satellites and ground stations • New satellite orbits • Connected planes, ships, trains and cars • Benefits for the Pacific Islands: tourism, fishing fleets and public safety • Role of satellite in 5G Facilitating better diffusion and broader use of satellite technologies and services <ul style="list-style-type: none"> • Free circulation of mobile and portable satellite terminals • Flexibility and harmonisation in earth station licensing • Blanket licensing and general authorisation approaches for earth stations in motion in selected bands
14:30 - 15:00	Coffee Break
15:00 - 16:30	Satellite Spectrum Issues at the World Radio Conference WRC-15 <ul style="list-style-type: none"> • Results and implications for satellite services and the Pacific Islands WRC-19 <ul style="list-style-type: none"> • Spectrum requirements for current- and next-generation satellite systems and services
16:30 - 17:00	Closing Comments
17:00 - 19:30	Cocktail Reception at Poolside Lounge
